# SWING BETTER, IMPROVE FASTER

SWING CATALYST IS A COMPLETE SWING ANALYSIS SYSTEM THAT ALLOWS YOU TO IMPROVE YOUR SWING WITH THE MOST ACCURATE AND COMPREHENSIVE SET OF TOOLS AVAILABLE. SWING CATALYST IS TRUSTED BY COACHES AND GOLFERS AROUND THE WORLD.

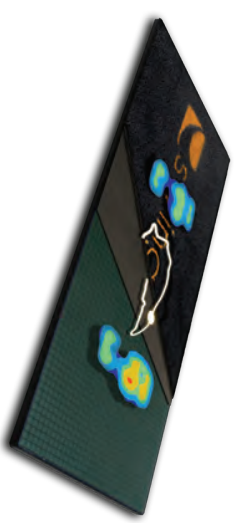

## INTUITIVE SOFTWARE

The intuitive interface displays all the components of your swing simultaneously.

## BALANCE PLATE

A groundbreaking balance transfer analysis system displays your weight transfer throughout your swing.

## HIGH-SPEED CAMERAS

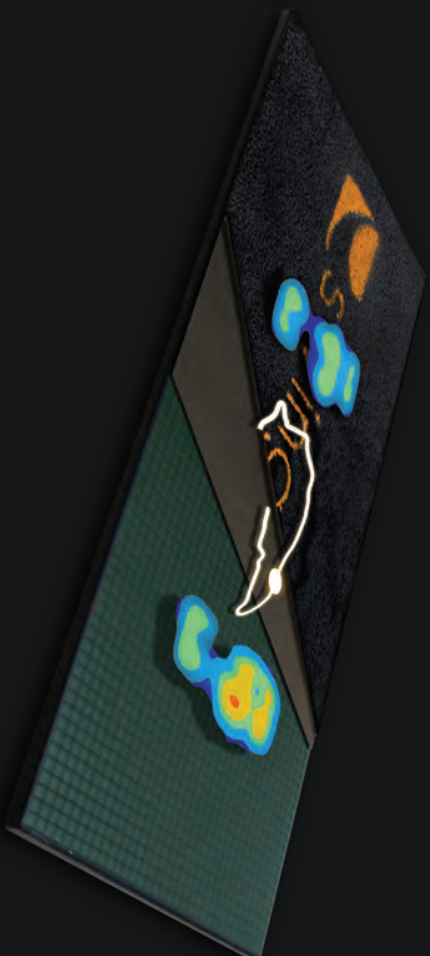

Fully synchronized cameras capture your swing in slow motion for frame by frame analysis.

# BALANCE PLATE TECHNOLOGY

THE SWING CATALYST BALANCE PLATE GIVES YOU FULL INSIGHT INTO THE SWING MECHANICS, RANGING FROM WEIGHT SHIFTING PATTERNS AND BALANCE DOWN TO DETAILS OF FOOT PRESSURE DISTRIBUTION.

Real-time data is perfectly synchronized with high-speed video images and displayed on-screen. This makes it possible for you to see exactly how and when you transfer weight and distribute foot pressure during a golf swing.

The Balance Plate, consisting of more than 2000 high-resolution pressure sensors, provides detailed foot pressure data, accurate pressure distribution, real time center of pressure (CoP) and CoP patterns. All elements that cannot be determined by the best trained eye or even expensive high-speed cameras.

The Swing Catalyst Balance Plate data is perfectly synchronized with high-speed video images as well as with the data from your Full Swing simulator.

# INDOOR STUDIO
